

1st Circular

The Working Group Archaeometry of the German Chemical Society

invites to the

**Annual Conference
„Archäometrie und Denkmalpflege 2025“**

to

Dresden from 18 to 22 March 2025

Dear colleagues!

The GDCh Working Group Archaeometry together with the Dresden University of Fine Arts invites you to the next Annual Conference "Archäometrie und Denkmalpflege" in Dresden. As usual, the programme will include three days of lecture and poster presentations on various topics of archaeometry and heritage conservation. On the fourth day there will again be an excursion. We are looking forward to a lively participation with interesting contributions from young scientists and experienced colleagues. These should have a clear reference to science and technology in the field of archaeometry. Contributions from restoration and conservation research with an analytical-scientific focus are very welcome. Contributions in German and English are welcome.

Venue of the conference

Dresden University of Fine Arts

Deadlines

Until October 31st, 2024: Registration of presentations by short abstract

Until January 31st, 2025: Submission of contributions for the conference proceedings (extended abstracts)

Talks and Posters

Wednesday, March 19th – Friday, March 21st, 2025

Further dates

Tuesday, March 18th, 2025: Icebreaker Event

Wednesday, March 19th, 2025: Public Evening Lecture

Thursday, March 20th, 2025: Members' Meetings (GDCh-AK Archaeometry, GNAA, DMG-AK Archaeometry) and Social Event

Excursion

Saturday, March 22nd, 2025: Excursion in the city of Dresden

Registration of presentations and poster contributions

Please send us a short abstract of your planned contribution (title + approx. 250 words + preference for presentation/poster) by **October 31st, 2024** via the homepage

<http://archaeometrie-tagung.de/>

After a review by a scientific committee consisting of representatives of the DMG, GDCh and GNAA, you will be informed about the acceptance of your contribution for presentation (oral or poster) and the invitation to submit the *extended abstracts* in mid-November.

The second circular with the preliminary programme will be published in December. It will contain further information on the conference venue, the lectures and poster presentations, the social event, the public evening lecture, the excursion, etc. Please do not hesitate to contact the organisation team if you have any further questions.

On-site organisation

Prof. Dr. Christoph Herm, Annegret Fuhrmann, Dr. Sylvia Hoblyn, Dresden University of Fine Arts

Organisation by the GDCh Working Group Archaeometry

Dr. Anika Retzmann, Atom Mass Lab, University of Calgary, Canada

Prof. Dr. Ester S. B. Ferreira, Cologne Institute of Conservation Sciences (CICS),
Cologne University of Applied Sciences

Dr. Annemarie Elisabeth Kramell, Institut für Chemie, Martin-Luther-Universität Halle-Wittenberg
